Book Condition: New. Publisher/Verlag: Springer, Berlin | Oxygen Measurements in the 21st Century: Basic Techniques and Clinical Relevance | The ISOTT 2001 local organizing committee was pleased to welcome over 140 delegates from around the world to the 29th annual general meeting of the International Society for Oxygen Transport to Tissue. The meeting was held in historic Philadelphia, USA, on the campus of the University of Pennsylvania from August 11 to 15, 2001. In the tradition of ISOTT, the conference was a total immersion experience. Attendees were encouraged to eat together and spend their evenings relaxing together in a style that maximized exchange of ideas and interactions of younger scientists with their more senior colleagues. Delegates participated in a total of 122 presentations including poster displays, selected oral presentations, seminars by invited speakers and a round table discussion. In choosing invited speakers and oral presenters, special emphasis was placed on methods for oxygen measurement in living tissue and application of these technologies to understanding physiological and biochemical basis for pathology related to tissue oxygenation. All of the manuscripts contained in this volume underwent both an editorial and scientific review, and only those meeting both criteria have been published. However, while all efforts have been made to eliminate editorial errors, some have undoubtedly been overlooked, for which the editors apologize. | Tumor Biology and Physiology. 1. The Role of Tumor Oxygenation in Vascular and Clinical Response to Angiogenesis Inhibition; M.S. Gee, W.M.F Lee. 2. Comparison of Fluctuations of Oxygen Tension in FSA, 9L and R3230AC Tumors in Rats; L.I. Cárdenas-Navia, et al. 3. Effect of Carbogen-Breathing on Redox Status of the RIF-1 Tumor; G. Illangovan, et al. 4. Evaluation of Microregional Variations in Tumor Hypoxia Following the Administration of Endostatin; B.M. Fenton, et al. 5. Effect of Hydralazine on Blood Flow,...
