The second part of Major Dwyers book, which is perhaps even more valuable than the first, relates to Bits and Bitting, and he shows more conclusively, than any writer who has preceded him, the importance of great care in the adjustment and management of the bit and bridle, giving some opinions which are quite new to the writer, and which are obviously important. His device for the head-gear of a young horse that is to be broken for any purpose, or of any horse that is to be trained to the saddle, we show in figure 9. This is an ordinary snaffle-bridle, with a single pair of reins, with the check-pieces drawn short enough to cause the bit to touch lightly in the corners of the mouth. There is attached to it, by two straps buckled one into each...
